DETAILED ACTION

Claim Objections

1. Claims 1-32 are objected to because of the following informalities: the phrase "validating/auditing", "sender/user", "client/receiving", "receipt/consumption", "encrypted/unencrypted", "client/consumer/receiving party", "received/consumed", "receipt/consumption", renders the claim(s) indefinite because it is unclear whether the limitation(s) following the "/" are part of the claimed invention (or those encompassed by "and/or"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d). Appropriate correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The disclosure lacks clear written description in the description of the claimed limitation "receiving, by the sender/user, the history record and a validation/audit of the

requested type of delivery upon receipt/consumption of the e-media in the form of a biometric signature to indicate receipt/consumption of the e-media by the client/receiving party to allow the sender/user to make future e-media delivery decisions”.

It is unclear which party, the sender or the user, is being designated to send or receive the record.

It is also unclear which, validation or audit, is being performed. Applicant clearly stated that “validation and audit are different”, on page 7, lines 13-19. “Validation indicates that delivery was obtained... Audit indicates a record of the chain of delivery events along the way...”.

The disclosure lacks written support and a description in how biometric signature can indicate receipt/consumption of the e-media by the client/receiving party and allowing the sender/user to make future e-media delivery decisions.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 7, 13, 19, 23, 27, and 30 are vague and indefinite because it is unclear how biometric signature can indicate receipt/consumption of the e-media by the

client/receiving party and allowing the sender/user to make future e-media delivery decisions.

Response to Arguments

6. Applicant's arguments with respect to claims 1-32 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
